#### EMBASSADOR OF LORD TER RELL.

On Monday last a fit Embassador of his Lordship Hor. Mr. Terrell made his appearance in this city. This distinguished personage stands about 5:10 in his boots, weighs about 150 pounds, but one would suppose the way he lorded it around the streets and particua tallow-faced, hollow-eyed, insignificant, contemptible, pucilanimous sneak, too mean to live, and yet he has such hatred for the world he refuses to die, he remains here as a curse to humanity. He is by appointment a route agent, but Lord Terrell has grown so immensely that he has detailed this fellow for his valet and the U.S. government has to foot the bills. The special Embassador of his highness told a Republican here that it "made no difference to Lord keeps on as they have been for the duce past two years appointing Democrats to office the Post will "boil over," lows as Terrell himself and others in dish. ing so long. Yes, we desire to see the Post boil over, we know we represent nine hundred and ninety-nine onethousandths of the party when we protest against the outrages that have been heaped upon the southern Repub-

their misdeeds in selling out the Republican party. TENNESSEE STATE DEBT.

know the day of reckoning for them is

near at hand. Therefore we shall go

There is a big fight going on in Tennessee concerning the state debt. A large portion of the press and people cover the and adroitness to adopt, as he are in favor of a just and reasonable opens the campaign which is the skirs compromise, 50 cents on the dollar at 4 mish line of 1880 with Republican per cent interest per annum; but there seems to be a majority in favor of re-pudiation. The question will be sub-doctrine of state rights" he rewards as mitted to the people in a few weeks for the most important question of the day their decision at the polls. Our valuable contemporary, the Knoxvills Whig and Chronicle, is in favor of the com- significance." With this patriotic and promise of 50 cents. We know that earnest warning, he appeals to the peothe compromise is right, from the fact that the Chronicle never supports any measure that is not just and right.

Among the shallow things in which the southern Bourbon newspapers inassertion that Mr. Haves did not recieve a majority of all the votes of the American people. He is not without company. Neither Polk, nor Taylor, nor Buchanan nor Lincoln had a majority of all the people, but each had a majority of electoral votes. Lincoln was no more President the second time, when he had more than 400,000 majority, than he was the last time. There is a law providing the mode of electing elected, must be elected in accordance with that law.

After a statute of the late Prince Imperial has been placed in Westminster Abbey, and some other memorial erected with the fund contributed by the British army, it has been resolved to devote the surplus of the fund to the establishment of a benevolent institu. it is said, also wishes to testify her affection for the Prince by some lasting token in the church of Chiselhurst.

Letters of congratulations from all parts of the south are coming in approving our course in exposing the Posts office Department, in appointing Democrats in preference to Republicans.

"Let us have peace," was the Republican cry of 1868. It will be, "let us have honest money" in 1880. Honest John Sherman, the father of resumption, to lead the way to victory.

Hard money. The same money for the poor and the rich, is honest John Sherman's doctrine.

Do we belong to a Republican party that stands on the great principle of equal civil and political rights to all men, re. gardless of color? If so, we should carry it out to the very letter. John Sherman stands on that platform.

FOR GOVERNOR.

The many friends, in North Carolina, of Judge Almond A. McKoy will press his name before the next Democratic State Convention as a suitable cardis date for Governor. The Judge is exceedingly popular, being born politician, he makes friends wherever he goes without seeming effort on his part. No man in that party would get as many votes as Judge McKoy were he the standard bearer of the Democrats.

When honest John Sherman was battling for the freedom of the colored people in the north, as far back as 1850 many of his enemies and the latter day saints were in favor of slavery. He has educated them up to abolitionism larly at the Postoffice that he weighed and they will also live to see him Presabout 500 pounds and was about 16 feet ident, when he will show the people bigh. Our readers will have to see him that he has the backbone to protect the to appreciate the picture. He is a small negro of the south in his ballot as well as in his property.

> Mi. Sherman's Portland Speech. The National Republican, speaking of

Mr. Sherman's speech, says: This effort does not please the Democrats for the reason that it lays bare the heresies, inconsistencies, and dis-loyalty of that party in its treatment of the leading political questions of the country. In its financial representations it represents no features beyond those which have marked his public efforts since resumption became an accomplished fact, and which have been Terrell if the Post did boil over." We repeatedly produced in these columns, can tell him if he and his master and tor that reason we did not reproout other interesting news matter, and to reproduce his points and arguments would have been a work of supereros so will the Republican party, and gation, for our readers have already the scum that is now on top, such fel-less as Torrell himself and others in dish. The speech clearly presents to the public mind the financial record of his department, will be boiled over the top and destroyed in the fire of Republican party, showing that it has been consistent, wise, and just, and productive of the happiest results to the general prosperity of the country. He dissected the Greenback platforms in Ohio and Maine with a skillful hand and with incisive power, literally flaying and destroying them in the light of reason and common sense. In all this the Secretary of the Treasury vindicates his masterly financial wisdom licans by Terrell, Thompson & Co., we and power, and secures the confidence do it with this knowledge, and also of every friend of sound government and honest money in the country.

We notice that in certain Republican quarters the efforts, outside the finanon exposing their rascality, and depend cial question, is charged with "striking its key note on the stalwart pitch," and on a just future to punish them for those who indulge in such criticisms will learn in due time, if they do not understand it already, that the fature Republican anthem cannot be effectively rendered except that it is pitched upon the "stalwart" key note. This music on the "stalwart" scale. He tells the country that "the recent revival by and elsewhere refers to it as "the issues before which questions of money, labor, or property sink into comparative inple of Maine, whether they agree with him or not on questions of finance, that they do not allow themselves to be diverted from their allegiance to the cause of the nation by minor divisions in our own camp, while "our old enemy is reviving the lost cause and is dulge the most senseless is the constant sapping and mining the national government." This utterance has the ring of the true metal and gives forth no uncertain sound. It contains the words of truth and soberness, faithfully spoken, and will work a healthy effect

upon the popular mind. Extract from Decisions of Supreme

Court. Ashe, J .: - State vs Lawrence; from

Petition for a writ of certiorari in nature of a writ of error, to review the judgment pronounced upon the defenda President. The President to be legally and tried and convicted at Spring Term, 1866 Columbus Superior Court. The indictment contained two counts, one for steading a horse and another for receiving the same, knowing it to have been stolen. The first concluded at common law and the second against the statute. The jury returned a general verdict of gailty and the defendant was sentenced to twenty years in the state's prison. He alleges in his petition for the certiorari that he has been kept in the penitentiary ever since his conviction commemorative of the Prince. It is computed that the army fund alone will amount to \$250,000. The Queen, proneunced upon him was not authorized by law and that the judgment below should be reversed and then, as the error, he must be discharged upon the for the support of Wm. Jones's wife, as

jeopardy twice.

Held: The writ of error in criminal cases does not obtain in this state. In no event can the prisoner be discharged; but as the sentence was too great the certiorari will be granted and the cause remanded to the court below that the prisoner may be brought before it and be sentenced according to law. The utmost punishment to larceny is ten years in the county jail.

WE DON'T ENDORSE IT. Read, what the North Carolinaian, our Republican cotemperary at Elizabeth City, says:

We do not endorse the position taken by the Greensboro North State on the Presidential question. To our mind the man's vision is dull who cannot see that John Sherman is rapidly looming up as the "coming man." One Republican, the rank and file of the party everywhere feel that they can trust him; and then his most successful management of the financial question -safely piloting the Ship of State to the haven of Resumption-has inspired a confidence that it making him the most popular, aye, the strongest man in

Hon. John Sherman is making a canvass of Maine. At Lewiston, Me., he made a two hours speech and after exposing the fallacy of the Greenback dogmas, Mr. Sherman briefly summed up the good results of resumption, and closed as follows:

There are battles of the future which affect your speech and your honor more than all the money questions that I could discuss. There are questions of the immediate future that rise above money and bonds, above property and There is the safety and supremacy of the national government, which is again called into dispute by the very men who waged the war against us for four years; for doctrines which preceded civil war; the very doctrine of caused the loss of blood and treasure to an extent for which there is no parallel. They are again coming up for discussion and decision. You cannot avoid them. An honest Greenbacker to-day told me that while he had some doubts on the greenback question, he had become alarmed at the danger of the southern question. I tell you it is upon us. The solid south is made solid by terror and violence. I cannot describe five million human beings we emancipated, who are now held in such terror and violence that they are practically deprived of the elective franchise. All that the solid south wants is a few people in the north, on any kind of an through their caucus they can rule and govern this country, as they tried to through the civil war. The important question of the future was the question

of southern domination. Mr. Sherman concluded by making an appeal to the voters of Maine to rally around the old party.

We call the attention of New Hans over Constables, who were elected in 1875, to the following from the Raleigh Observer, a Democratic paper :

A friend writes us to know if an election will be held for constables this year, to which we reply as follows: The election of a constable for each voters thereof, was provided for in article 4, section 30, Constitution of with by the amendments made by the Constitutional Convention of 1875, and the General Assembly has no power to change its provisions as it has to modify, chauge or abrogate the provisions of article 7, amended Constitution, relating to counties, townships, etc., and which it exercised at the session of 1876.'77. In establishing county and township governments, the legislature of 1876-77 made no provision for the the people, the commercial interests election of constables, and those elected at the regular township elections in 1875 have continued to hold and will hold their offices until the Tuesday after the first Monday in November, constables under section 3, chapter 152, Acts 1878-'79.

MEETING OF THE BOARD HEALTH. -- The New Hanover Board of Health held a meeting at the Court House Friday night, the following members were present: Col. Wm. L. Smith, Chairman, and Drs. W. This section was not interfered Brown, the Secretary, Dr. J. C. Walker. and Dr. Curtis, the Health Officer at Smithville.

The session was protracted, and was devoted chiefly to consulation as to the best means and methods to prevent the introduction of yellow fever into the city, and to protect, as far as practiable, without jeopardy to the health of which centre in this city.

The result of their deliberations will be officially published for the benefit of the community. The rules of inter-1880, when an election will be held for diction which the Board established are rigorous but just. Vessels arriving in the Cape Fear from the West Indies, South America, or any other infected ports will be held at the Quarantine Station, whether there is sickness on board or not, and they will not be allowed to discharge or take in carge, or hold any communication with the city until after the 1st of next November.

MURDER.-Who is responsible for the killing of the poor colored man, William Jones, at Castle Hayne? is the question that has been asked hundreds of times since Friday morning. The constable, Schriver, is a young man of very excellent character; he is the son of one of our very best citizens. All who know him like and respect him, but the taking of human life is a very grave affair, let the circumstances be what they many. "Under the Willows; or the three

Countesses," by Mrs. Elizabeth Van

Loon, author of "a Heart Twice Won,"

and "The Shadow of Hampton Mead," is published this day by T. B. Peterson & Brothers, Philadelphia, and undoubtedly shows that to compose an original and striking work of prose fiction is not among "the lost arts," about which a great orator used so eloquently to discourse some years ago. Most of the characters are American, but the action shifts from the New World to the Old from this country to Europe, France and Italy, and is a strange mixture of reality and romance. Characters the most contrasted are brought together in the strangest and the most unexpected combinations. Incidents the most startling are adroitly narrated with so much vraisemblance that the reader will be puzzled how to take them; yet the improbable eventually turns out to be the truth, and what ruight be anticipated from their results does not occur In these days, when society novels, historical novels, professional novels, literary novels, tourist novels, and sensational novels are very numerous, it is well, if only by way of relief, to have a story in which the writer, following the aboriginal example "Under the Willows" is a romance of unbroken interest, in which the wild oped than in most compositions of its class. SHOT AND KILLED THE WRONG MAN.- Wm. Jones, colored, a deputy constable of Cape Fear Township, was shot and killed by Mr. H. E. Schriver, the bonded constable of the township,

On Saturday, the 19th itst., Randall Jordan, colored, escaped from Mr. Schriver, constable, who had him under arrest on the charge of assault and battery, Wednesday afternoon Mr. Schriver heard that Jordan was at his house, a short distance from Castle Hayne, and summoned Wm. Jones and Jno. Dudley, both colored, to assist in the capture of the fugitive. The course of proceedure agreed upon was that the three should surround the house Wednesday night. Each was given a stand and cautioned not to leave without giving some sign or warning .-Jones for some reason left his stand and ran down the road toward Mr. Schriver's. Jones had his pistol in his hand and Mr. S. Thought it was the escaped prisoner coming at him for the purpose of a fight, ordered him four times to stop. Since the southern bourbons have discovered that they are the only patriots and statesmen in the country they are entertaining themselves with cynical criticisms upon all the civilized world, outside of them. All the rest of mankind are Lilliputs compared to their Brobdinagian imaginations. All the rest of the universe is to their brilliant visions out of order and askew. This late touch of power, held by slender majorities, has set them crazy.

#### FOR GOVERNOR.

A personal friend writiting us, suggests the name of Hon. David A. Jinkins as the next Republican candidate for Governor, of North Carolina. We agree with our friend, there is no man in the state who stands better with the masses of the people or with the business men than David A. Jinkins. He was Treasurer of this state for eight years and the affairs of the Treasury Department of the state were never before or since so ably managed as they were during his administration. Therefore, we take pleasure in indorsing him. He would carry the state by 20,000 majority.

The Hendersonville Courier, speaking of Gov. Jarvis's "new policy" on railroads, asserts that it is necessary to every distinctive organism to have a vertebral column-a backbone. We agree with the Courier that North Carolina has two long been a fungus-one of those animal organizations which are appendages, adjuncts and parasites to outside business combinations. If we do not feed on them, they most certainly feed on us, and we have no healthy business existence which does not minister to their ambition and are about Goy. Jarvis's "new policy" is

It is to be feared, from the reports from Memphis, that the doors of the pestilence are wide open, and that the dreaded monster is to stalk abroad again this season. On the 20th thirtyhas already become epidemic. Instead of diminishing it is constantly increasing. Panic has seized the population of that fated city, and they are fleeing in herdes out from its pestilential gates in numbers so great that the railroads and steamers cannot carry them, and they take, in all sorts of vehicle, to every diverging highway. In the meantime business in Memphis is entirely paralyzed and whole streets of the business portion of the town are gloomy with closed doors.

# GEORGIA POLITICS.

The Times has a telegram from A lanta and one from Washington in regard to political prospects. The dispatch from Washington states that there is to be a strong "Independent" movement, headed by A. W. Stephens and Ben. Hill against the Colquitt-Gordon ring, and that both Hill ane Stephens will stump the state at the coming gubernatorial election. It is said also that they will run Dr. Felton for Gov. ernor against Colquitt. Felton is the only independent who was elected to Congress at the last election, being at present a member. Hill and Stephens have adjusted their bitter personal controversy which lasted for years and are "spike tail."

The dispatch from Atlanta relates mostly to the opinions of Jonathan Norcross of Atlanta. Norcross is about the most prominent and influential man among the Republicans in the state, and is a gentleman of rare intelligence, judgment and sagacity, and of great wealth and business standing. Norcross tells the correspondent that what the Republicans will do is not certain until the "independent" movement is more developed. If Hill, Stephens and Felton burn their ships behind them, and make a bold and determined fight forward, without looking back, the Republican vote will probably be cast with them. Mr. Norcross is not very sanguine as to results. If the element which Hill and Stephens can control are inflexible, and they do not count out the negro vote, of course the state is carried against the Colquitt -Gordon ring. This is Mr. Norcross's

language: "I think they have it in their power operation of the Republicans, and secure to them the Governor and the state-house officers, as well as a majority of the members of Congress. Should they hesitate to do this, as quite likely they will, and lapse back into the Bourbon ranks, the Republicans will feel compelled to organize and adopt all possible measures to swell their vote for the Presidential candidate, and for

some other purposes." Again he says:

No power on earth, not even a redoubled reign of kukluxism, White Leagues, and shot-gun brigades could keep the colored people from taking an active interest in the Presidential con- Md.; Orphans Home, Baldwin, La. test. keep striking for their constitutional privileges and rights.

And again: The negroes, as a rule, are unquestionably faithful to the Republican party; they will be for this and for the next generation. In my opinion, if they could be allowed to organize, and be left to their own colored leaders for guidance, 99 out of every 100 would, other circumstances being favorable, vote the Republican ticket. For the past few years the sagicity with which they have voted for their friends and the best men in local offices has astounded and disappointed many a Democrat who has attempted to purchase them with tobacco and mean whisky. In the course of his conversation he

says that the "record that the Bourbons have made since they came into power in the state, in plunderings and losses to the Treasury, is enough to overthrow any party but a Democratic party." He is not able he says, to give a very intelligible statement of the causes which overthrew the Republican party of the south, but intimates that it was the spirit of the rebellion, the kuklux, the rifle-clubs, aided by the "poltroonery of the north." The Times Washington correspondent says that, ever since the colored men of Georgia have been practically disfranchised there has been no organized opposition in the state to the Democracy, and only Democrats have been permitted to run for office. This unnatural unanimity emboldened the their power the leaders have been guilty of excesses which have disgusted fair-minded men, and called into ex- critcism : istence a formidable opposition. And well does, the Times add editorially that: "Sooner or later, the Democratic party in the south must fall to pieces of its own weight, and the advancing disintegration in Georgia is a fair indication of the rate at which such a movement is likely to proceed."

THE M. E. CHURCH.

The Morning Glory in spite of our fraternal and careful admonitions is al the time getting into absurdities. It has just now taken entire charge of the regance. What is worse we seem will- people of African descent on the contiing tools and slaves, if what they say nent, and is lamenting that they are so badly treated by the Republicans and pists. It complains that our African friends have lately been beguiled into Kansas where they are starving to death. It complains that Massachusetts never has elected one of its 5,000 colored voters Governor, or Judge, or Member six new cases appeared, and the scourge of Congress. It is especially grieved at us through other sources at different United States, in not electing a colored Bishop. As to our Africo-American friends in Kansas we cannot speak from actual knowledge because we haven't been inspired to attend to them with that assiduity that our neighbor has. But we reckon they are as well off physically, and have as good moral surroundings, as those whom they have left in the hovels along the Mississippi and of the classic jungles of Red River. As to Massachusetts, we have as much regard for the rights of majorities as they had in Kitchen's District, or in South Carolina or Mississippi, and we see no reason why the majority are not entitled to rule, especially if the count is fair, and elect whom they please. Considering that the colored people in that state are only one in 90 of the whole population it might not seem strange to any body but our neighbor, that it would be natural for them to elect Caucassians instead of rushing persons of African descent into all the offices, as our neighbor desires them to.

As to the M. E. Church we have quite a little to say. They have done not a little for our citizens of African descent, possibly as much as the whole Demos to be yoked together with Felton as the cratic party of North Carolina has. They have not passed any landlord and tenant act, nor any such act as that under which the citizens of Wilmington live, by which a city having 1,500 Republican majority still has a Democratic city government. That church does not seem to be up to that high style of chivalric conduct. But the Methodist Episcopal Church of the United States, which our neighbor terms the "Northern Methodist Church," but which, unfortunately for his historical accuracy, is as much the Methodist Church of America as Pius IX. was the Pope, and as much as the notion was the notion after 11 states had seceded this Methodist Episcopal Church which Whitefield built up-has founded for the benefit of the colored people of the south thirteen first-class educational institutions in the south, and what is more, she paid for them and now supports them.

That we may not be misunderstood we give their names and locations: The Central Tennessee College, Nashto organize and put forth a platform of ville; Shaw University, Holly Springs, stitute, Orangeburg, S. C.; Ciarke Uni- the same office which they had once versity and Theological Seminary, Atlanta, Ga.; New Orleans University and

any one of these institutions in its columns. We are not certain that it would countenance the establishment of such institutions of learning. It may be that it is considered an intrusion upon 'state rights" that these thousands of dollars are expended in the south by this great church, and hundreds of young people are sent out yearly with good training to benefit society. It is to be understood that in the judgment of our neighbor a criticism on the neglect of this great body to make a colored Bishop is of more importance than the great work which as a theological asso-

NORTH CAROLINA REPUBLI-CANS." The National Republican has been so exceedingly friendly to southern Republicans, uniformly defending them, and when the party of the north seemed to have deserted the party of the south, the National Republican took up our cause, and to its manly fight in our behalf, more than any other paper north of the Potemac, do we owe a debt of gratitude for an honest defence of southern Republicans. And under the present editorally management we have been particularly well pleased at its noble efforts to assist us. Therefore we were the more surprised when we read the article that we published and Democrats, and in the arrogance of critcised in our last issue. > "The Wilmington (N. C.) Post, in referring to a late article in The Nationa! Republican relating to the present condition of the Republican in that state, administers to the Republican the following rebuke, which we copy, that the Post may have its say in all its fullness:

We sincerely hope that our information is incorrect, and that the fullest harmony, unity, and fraternity of feeling pervades the Republican party of North Carolina, and will continue to mark its history until it is fully habilitated in its intrinsic strength and power, and assumes political control of the entire domain. We would be the last intentionally to misrepresent or do injustice to the Republican party there or elsewhere in the country, for it is the northern churches and philanthro- our only hope of conserving Republican | themselves by firing rifle-shots into its principles and institutions in this na- walls. tion. This we regretted to hear, as much as we did to refer to it in the article of which the Post now complains. If we have been misinformed and misled we shall take lawless force and murder a Democratic it than we did in referring to it by way of criticism and rebuke. The Republican, if we know it, cannot be used by "North Carolina politician" that state, or to place it in a false position, for that is not its mission as a Republican journal. It does not labor to pull down, but to build up, the Repubican party, even though to accomplish altogether pleasant as they occur to our mind, and are presented to our judgment from time to time to incite us to

> We have confidence to believe that the Republican sentiment of North Carolina is so strong that it should control the state, and if fully crystalized in harmony of feeling and unity of action, and is properly asserted in a well ordered campaign against the common enemy, will do so. It remains for the Republican party to accomplish this through its own efforts. No one outside the state can do it for them, or prevent their accomplishing the work if they set themselves seriously and determinedly about it.

DEFFERSON DAVIS'S DIGNITY. But it is worthy of their consideration. From the Augusta (Ga.) Chronicle, July 13.

The Canton (Miss.) Citizen has this literary curiosity: "We believe that we express the opinion of nine-tenths of the people of Mississippi and of the south when we say that for Jefferson Davis to seek or accept any political office would be a lowering of his personal dignity, and a descent from the proud position that he now holds as the representative of the lost cause. The man dignifies the place, not the place the man." Did Mr. Davis "lower his personal dignity" when he accepted the Presidency of a life insurance company, now no more?

Perhaps this Canton fellow, whoever he may be, intended to slur Aleck Stephens, and therefore the Georgia fellow took it up, It is pretty well established as etiquette in these United States that when a man has once been President he is to retire, and live in graceful and dignified retirement. A White Man With A Red Flag. NEW YORK, July 7th.

From the Boston Traveller.] Senator Lamar says he was surprised at the extent of the negro exodus fever in Mississippi, and at the prospects for the future in this regard. He says the colored people are being excited to the highest pitch by the stories of the land of milk and honey they will find in Kansas. Recently, a white man carrying a red flag passed through one section of the state, spreading a report that the government had taken up the exodus question, and would from that time on furnish all who wished to go to Kansas with a free transportation and a supplied farm, on their removal to that promised land. The day and the ciation it is doing towards educating hour when that free train would pass, was announced; and at that time hundreds of negroes swarmed along the line of the road for miles, only to be informed by the railway people that

there was no free train. Lamar, of Mississippi, finds himself surprised at the extent of the negro exodus fever, and at the prospects for the future in this regard, but the only fact that he cites in explanation of the nature and extent of the exodus fever is that recently a white man carrying a red flag passed through one section of the state spreading a report that the government had taken up the exodus question, &c., &c.

# The Hero of the Stalwarts.

The Hon. William E. Chandler ha expressed the opinion that, in possible contingencies, next year's Republican National Convention may conclude to intrust the party flag to the stalwart hands of the Hon. Zachariah Chandler of Michigan. The suggestion seems to have taken the Republican politicians and editors by surprise; at least, they have as yet very little to say about it.

True, the Hon. Zachariah Chandler himself is quoted as saying that it is absurd. But perhaps this may be only the modesty which sometimes-though not always - is wedded to eminent dev crats at the next session of Congress

Mr. Tilden skulked in his handsome rooms in Gramercy

in the War Department has been fully agreed upon. It is semi-officially announced that ex-Governor Ramsey, of Minnesota, is the man. This corroborates what our Washington dispatches said as far back as two weeks ago. The sensation reports published by the Daily News were without foundation so far as the War Department was concerned. It is very unlikely that Gen. Logan could be induced to leave his high position as Senator to become Sec. retary to any President. It is not improbable, however, that some of the President's friends may be desirous of securing a second term for him, and quite probable that the President has lent them a pleased ear. It would hardly be human for him to do otherwise. A re election is the best vindication of his administration any, President can have. Stranger things have happened than such vindication being given to President Hayes. His course for the last year has allayed much of the animosity the first year of his administration created, and the Democrats at the next session of Congress will more than likely give him opportunity to place himself at the head of the stalwart and only vital branch of the party. Since Mr. Hayes got down from among the angels, where the wiles of Curtis, Schurz, and Evarts placed him, and has taken his natural place as a Republican statesman, it is surprising how he has grown in the favor of the people. The Most Valuable Medical Discovery Known to the World—No More Use For Quinine, Calomel or Mineral Poisons—Life for the Blood, Strength For the Nerves, and Health for A!!

IN OPEN LETTER TO THE PUBLIC, Believing that by cleansing the blood and building up the constitution was the only true way of banishing disease and being troubled with weakness of the lungs, catarrh, very much broken down in constitution, &c., and after trying the best phy troubled with weakness of the lungs, estarrh, very much broken down in constitution, &c., and after trying the best phy sicians and paying out my money for many kinds of medicines advertised without finding a permanent cure, I began doctoring myself, using medicines made from roots and herbs. I fortunately discovered a wonderful Bitters or Blood Cleanser, the first bottle of which gave me new life and vigor, and in time effected a permanent cure. I was free from catarrh, my lungs became strong and sound, being able to stand the most severe cold and exposure, and I have gained over thirty pounds in weight. Feeling confident that I had made a wonderful discovery in medicine, I prepared a quantity of the Root Bitters, and was in the habit of giving them away to sick friends and neighbors. I found the medicine effected the most wonderful cures of all diseases caused from humors or scrofula in the blood. Imprudence, Bad Stomach, Weakness, Kidney Disease, Torpid Liver, &c., &c. The news of my discovery in this way spread from one person to another until I found myself called upon to supply patients with medicine far and wide and I was induced to establish a laboratory for compounding and bottling the Root Bitters in large quantities, and I now devote all my time to this business.

I was at first backward in presenting either myself or discovery in this way to the public, not being a patent medicine man and with small capital, but I am getting bravely over that. Since I first advertised this medicine I have been crowded with orders from druggists and country dealers, and the hundreds of letters I have received from persons cured, prove the fact that no remedy ever did so much good in so short a time and had so much success as the Root Bitters. In fact, I am convinced that they will soon take the lead of all other medicines in use. Nearly one hundred retail druggists, right here at home in Cleveland, now sell Root Bitters, some of whom have already sold over one thousand bottles.

The Finest Diamonds in the World. From Galignani's Messenger, July 5.

Western sovereigns are not the possessors of the finest diamonds in the world, for the Rajahs of Matan, Borneo, and the Shan of Persia have the largest hitherto known. The one belonging to the Emperor of the Monguls weighed 279 carats. (about four grains each,) and was valued at 12,000,000 francs, The famous Orloff, the property of the Russian crown, is one of the most remarkable diamonds, on account of the well-known circumstances under which it was brought to Europe. The large stone belonging to the Emperor of Brazil, which weighs 1,730 carats, would be worth many millions were not its brilliancy diminished by certain defects. The Sultan of Nizam's diamond weighs 400 carats; that of the Emperor of Austria 29 grains; and that of the King of Portugfil, 25½ grains. The famous Koh-i Noor, or Mountain of Light, is the property of the Queen of England. The one which adorned the tiara of Pius IX., and was tequeathed by him to his successor, Leo XIII., is one of the finest stones known. It came from the treasury of the Duke of Bergundy, seized at Granson. It was sold after the battle to a Jew of Berne for 3 crowns, then successively for 5,000 and 6,000 ducats, and afterward purchased for 14,000 by Luigi Sforza, from whom it passed into the hands of Pope Julius II. for 20,000 ducats. Every one knows that the "Regent," of the weight of 136 carats, is the finest of the diamonds belonging to the French regalia. Connoisseurs consider it to be worth 12,0 000,000 francs.

A Georgia paper calls up the old story of the returned soldier from Mexico who enlarged upon the destructiveness of Kentucky chain shot. He was asked what Kentucky chain shot was. He replied the simplest thing in the world. "You just load two cannor, half a mile apart, with two cannon balls that are fastened together by a chain; you fire 'em both off when the enemy's troops are coming up in force, and the chain takes down the whole division of 'em. It's the neatest thing in artillery practice." This was satisfactory to all save an elderly farmer, who wanted to know how it would be "sposen, now, only one gun goes off?" "O, then," says the military hero, "the bloody thing swings round and plays hell with our fellows." One would think from the way the Democratic leaders are scampering about to get out of range, that the one-sided chain shot experiment had been tried in the Democratic camp.—Exchange.

It begins to be understood that the READY "issues" presented by the late extra session of Congress are not the only ones of absorbing interest to the public. Secretary Sherman has already aroused at the very beginning of his political summer tour a deep interest among commercial people, especially on our financial situation. He has shown that resumption, with all its attending blessings, has been the work of the Republican party, and that a necessity exists, in order to perpetuate and give them lasting stability, that the Republican party shall be retained in power. The Democrats are now, and always have been the enemies of resumption. It is therefore natural that they should view with alarm the excited interest exibited by the people in this question as developed by Secretary Sherman's recent speeches. They know that this interest can only result in their discomfiture and the consequent advantage of the Republican party.-Nat. Republican.

### How Independence is Limited. [From the Raleigh (N. C.) News, July 12.]

The independent movement in Georgia is assuming the shape of a party organization. We notice in the Atlanta Dispatch that a call has been issued for a convention of "all persons aloof from either the Democratic or Republican Parties." The News believes in independence of thought and action in politics. Upon this depends the preserva-tion of our liberties and the overthrow of rings and monopolies. But there is a way to be independent without being a traitor. If our so-called independence endanger our civilization by the re-establishment of radicalism, it can no longer be styled independence, but self-aggrandizement. Our independence must exert itself inside of the Democratic lines. There is room enough there for it. If the party is not purified, and rings not overturned, it is our own fault.

The Sherman movement has strength in the south outside of official circles, Hard money Democrats not failing to observe the tendency of the party north to accept the views of the soft money men, are regarding him with favor. want lasting peace, and who would apply to ... McDonald, There is a large number of men who have the attention of the south turned to its development, and to pursuits that will permanently enrich its people, that will look upon any man that it is believed will continue a policy like that of the administration with approval. officer, bona-fide Democrat, speak in the warmest terms of the management of finances. The money question will not be one of the minor issues of the campaign, even in the south.—Atlanta (Ga) Republican.

that great American Remedy, the

Mustang Liniment,

FOR MAN AND BEAST.

This liniment very naturally originated in America, where Nature provides in her laboratory such surprising antidotes for the maladies of her children. Its fame has been spreading for 35 years, until now it encircles the habitable globe. The Mexican Mustang Liniment is a matchless remedy for all external aliments of man and beast. To stock owners and farmers it is invaluable. A single bottle often saves a human life or restores the usefulness of an excellent horse, ox,

It cures foot-rot, hoof-ail, hollow horn, grub, screw-worm, shoulder-rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and bush life. It cures every external trouble of horses, such as lameness, scratches, swinny, sprains, founder, wind-gall, ring-bone, etc., etc.

The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the

family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheuma tism, and stiffness engendered by exposure. Particularly valuable to Miners. It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure.

Mexican Mustang Liniment is put up in three

sizes of bottles, the larger ones being proportion ately much the cheapest. Sold everywhere. february 1 ly R

SUNDAY MORNING, JULY 27, 1879.

The Hebrews and the Corbins We make no apology for publishing an editorial in full from the New York Herald, concerning the outrageous conamount of "hemp" would be of benefit in its managers. in this case:

It is sometimes contended that woman is superior to man because her range is wider, it being admitted that she is capable both of nobler and of meaner things than he is. If the principle is correct perhaps it proves the superiority of our country to all the rest of creation whenever an American does a particularly mean act or utters a particularly mean sentiment. We should like to think so in the instance of Mr. Austin Corbin, the President of the Manhattan Forsyth, Mary Ellen Jones. She is Beach Railway and Hotel Company, who proclaims his purpose to exclude all Hebrews from his railroad and his tavern and its side shows because he dislikes their race. But, without dwelling on that view of Mr. Corbin's case, we desire to indicate to him a very simple and easy way to avoid association with Hebrews at Manhattan Beach, in- the 1st of September next. stead of the clumsy and impracticable method he proposes.

His method is clumsy because it sand persons for the accommodation of on Tuesday August 12th, and will reone, or at the utmost only two. So far main in session about three days. as we know there are but two members of the race of Corbin in New York, one of them the Mr. Austin Corbin aforesaid and the other a Mr. Daniel C. Corbin, who shares his brother's prejudices. On the other hand, according to a recent census of the synagogues, there are no less than fifty thousand Hebrews in this city, or one in every twenty inhabitants. Wide differences of condition exist in such a multitude, of course, elements of good citizenship the Hebrews of New York may challenge comparison with the representatives of every other race that enters into the aggregate of the population, and in some they are incontestably superior. Hebrew culprits are rare in the criminal courts. A Hebrew pauper in the public almshouse is almost unexampled. Thritty, orderly and charitable, these fifty thousand citizens contribute at least their proportionate share to the welfare of the community in which they are equal citizens with the two Corbins. It would be very clumsy to exclude so many persons from Manhattan Beach, if Mr. Austin Corbin can be accommo-

dated in a simple way.

His method is also impracticable because it is unlawful. This is a free country, with certain limitations, and one of those limitations prohibits railroad managers, hotel keepers and showmen from choosing their own company. Every Hewbrew, so long as there is room for him and he behaves himself, has an equal right with every other person to passage on the Manhattan Beach Railroad, board and lodging in the Manhattan Beach Hotel and admittance to all the side shows. In his triple capacity of railroad manager, hotel keeper and showman Mr. Corbin exercises public franchises which involve corresponding duties to the public that he cannot evade at his pleasure whenever they offend his tastes.

The simple and easy way for Mr. Austin Corbin to escape association with Hebrews at Manhattan Beach is to resign his Presidency of the railway and hotel company and never visit the place again, and after such an exhibiweek it will be surprising if the stock-

Life in Prevention. [From the New York Herald.]

This fact, a most practical evidence of its enduring pepularity, has induced the Messrs. Peterson to effect arrangements with its accomplished author (our worthy and veteran senior) for the began to wane and was the most dead-

It makes Democrats sore in large spots to see John Sherman honored. An organ sneeringly says: "Let John Sherman make a greenback speech in Maine." Certainly. Why not? Who has a better right to talk greenbacks than the old-line Republicans? They made the greenbacks, and they have defended them. Greenbacks came in a necessity, and they will stay, for the reason that they are not only useful but honest, and fully to be trusted. DR. C. McLANE'S CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint, DYSPERSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

DAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

# AGUE AND FEVER.

DR. C. McLane's LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL. For all bilious derangements, and as a simple purgative, they are un-

#### equaled. BEWARE OF IMITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid, with the impression Dr. McLane's LIVER PILLS.

The genuine McLane's LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine Dr. C. McLane's Liver Pills, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently but same pronunciation.

FOR HEATH AND PLEASURE GO TO PATTERSON'S CELEBRATED

SPRINGS.

THESE SPRINGS are situated four miles south of Shelby and six miles north of Whitaker's, on the Air-Line R. R. The mineral waters are sulphur and chalybeate. The properties of the sulphur are iron, sulphur and magnesia. Properties combined are beneficial to all disease, and nevr fail to cure the most obstinate cases, as many will testify. The chalbeate waters can not be surpassed, having wrought many almost miraculous cures.

These Celebrated Springs will be open first of April, and the prices are in reach of all: having been greatly reduced this season.

Bathing houses, croquet grounds, ten-pen alley, and other amusements and attractions free for visitors. Hacks running from this place will meet visitors at Shelby or at Whitaker's, on Air-Line R. R., upon short notice to the Proprietor.

THE SUN FOR 1879.

The Sun will be printed every day during the year to to come. Its purpose and method will will be the same as in the past: Te present all the news in a readable shape and to tell truth though the heavens fall. The Sun has been, 1s, and will continue to be independent of everybody and everything save the Truth and and its own convictions of duty. That is the only policy weich an honest newspaper need have. That is the policy which has won for this newspaper the confidence and faiendship of a wider constituency than was ever enjoyed by any otter American Journal.

The Sun is the newspaper for the people. It is not for the rich man against the preman, or for the poor man against the preman, but it seeks to do equal justice to all interests in the community. It is not the organ of any person, class, sect or party. THESUN FOR 1879 organ of any person, class, sect or party.
There need be no mystery about its loves and bates. It is for the honest man again t and hates. It is for the honest managan to the rogues every time. It is for the honest Democrat as against the dishonest Republican, and for the honest Republican as against the dishonest Democrat. It does not take its cue from the utterances of any collision or political organization. It gives not take its cue from the utterances of any politician or political organization. It gives its support unreservedly when men or measures are in agreement with the Constitution and with the principles upon which this Republic was founded for the people. Whenever the Constitution and Constitutional principles are violated—as in the outrageous conspiracy of 1876, by which a man not elected wfis placed in the President's office, where he still remains—it speaks out for the right. That is the Sun's idea of independence. In this respect there will be no change in its programme for 1879.

for 1879.

The sun has fairly carned the hearty hatred of rascals, frauds, and humbugs of all sorts and sizes. It hopes to deserve that hatred not less in the year 1879, than in 1878, 1877, or any yerr gone by. The Sun will continue to shine on the wicked with unmitigated brightness. mitigated brightness.

While the lessons of the past should be

While the lessons of the past should be constantly kept before the people. The Sun does not propose to make itself in 1879 a magazine of ancient history. It is printed for the men and women of to-day, whose concern is chiefly of to-day. It has both the disposition and the ability to afford its readers the promptest, fullest, and most accurate intelligence of whatever in the wide world is worth attention. To this end the resources belonging to well-established prosperity will be liberally employed.

The present disjointed condition of parties in this country, and the uncertainty of the The present disjointed condition of parties in this country, and the uncertainty of the future, lend an extraordinary significance to the events of the coming year. The discussions of the press, the debates and acts of Congress, and the movements of the leaders in every section of the Republic will have a direct bearing on the Presidential election of 1880—an event, which most will have a direct bearing on the Fresidential election of 1880—an event which must be regarded with the most anxious interest by every patriotic American, whatever his political ideas or allegiance. To these elements of interest may be added the probability that the Democrats will control both Houses of Congress, the increasing feebleness of the fraudulent Administration and the spread and strengthening every. and the spread and strengthening every-where of a healthy abhorence of fraud in any form. To present with accuracy and clearness the exact situation in each of its

varying phases, and to expound, according to its well-known methods, the principles that should guide us through the labyrinth will be an important part of the Sun's w rk We have the means of making the Sun, as political, a literary and a general newsper, more entertaining and more useful than ever before; and we mean to apply

them freely.

Our rates of subscription remain unchanged.
